1. Executive Summary

AfriGold (AFGD) is a fixed-supply community token on Solana using **Token-2022** with a modest **1% transfer fee (capped at 0.05 AFGD per transfer)** to fund development, marketing and charitable initiatives. The token's brand and metadata (name, symbol, URI) are locked on-chain; the mint and freeze authorities are revoked, making the supply permanent.

- **Chain:** Solana (fast, low-fee, high-throughput)
- **Supply cap:** 1,000,000,000 AFGD (fixed); **current minted ≈ 999,976,819.58975806 AFGD**
- **Transfer fee:** 1.00% with a hard cap of 0.05 AFGD per transfer
- **Immutability:** Metadata locked; mint & freeze authorities not set
- **Liquidity:** Initial pool on Raydium (AMM ID `BUV4vgrkMARGvsnL4h4pmRxv941mZH4d4VDz3mwFqpxB`)
- **Socials:** Twitter/X (https://x.com/AfgdAfrigold) · Telegram (https://t.me/AFGD_Official) · Website (https://afrigold-dev.github.io/afrigold-assets/)

2. Mission & Rationale

AfriGold aims to cultivate an energized community around a simple, verifiable token with transparent funding for ongoing development and outreach. The capped transfer fee provides predictable funding without runaway "tax" dynamics.

3. Token Specification

- **Mint:** `8KbB5DkHTS3ZwWqwe1FUgZvR8kQJWPafU7CRrUL1RjKG`
- **Program:** SPL Token-2022 (Transfer Fee Extension)
- **Decimals:** 9
- **Ticker:** AFGD · **Name:** AfriGold

4. Transfer Fee Policy

- **Rate:** 1% of the transferred amount
- **Absolute cap:** 0.05 AFGD per transfer
- **Collection mechanism:** Fees are accumulated in recipient token accounts and are **harvestable only** by the withdrawal authority (Token-2022 mechanism).
- **Distribution policy (initial):**
  - Development wallet: *TBD (e.g., 50%)*
  - Marketing & Charity wallet: *TBD (e.g., 50%)*
- **Cadence:** Withdraw periodically (e.g., weekly); transfer on-chain to allocation wallets and publish a short transparency update.

5. Liquidity & Market Structure

- **AMM:** Raydium
- **Pool (AMM ID):** `BUV4vgrkMARGvsnL4h4pmRxv941mZH4d4VDz3mwFqpxB`
- **Pair:** AFGD / USDC

6. Governance & Transparency

- **Admin key:** `FZSC3GKVMA9X3Y1XzEH3ose1zzUCnXqYuGKJhL9PPfdr`
- Migrate to multisig; publish allocation wallets & ratios; keep a public ledger of harvested fees and distributions.

7. Roadmap (initial)

- **Q4 2025** — CoinGecko submission; site/docs polish; publish fee wallets & first report.

- **Q1 2026** — Multisig migration; fee dashboard; additional listings.
- **Q2 2026** — Community micro-grants funded from the marketing/charity allocation.

8. Risks & Disclosures

Crypto assets are volatile and can lose value. AfriGold does not represent a security, equity, or claim on profits. No guarantee of liquidity or listings is made. Users must comply with local laws and accept all on-chain risks.
